

POLAR Refrigeration GmbH is a company which manufactures equipment for refrigeration according to customer requirements. The company, based in Berlin, plans and builds customized refrigeration units for special applications in refrigeration. Our focus is primarily on the oil, gas and chemical industries.

To strengthen our team at the location in Berlin, we are looking for a

Production Manager (w / m / d)

with an international profile for our growing activities in Germany in the field of industrial refrigeration.

Your tasks:

- Responsibility for the workshop area of the site
- Responsible for compliance with the relevant production indicators (quality, cost, delivery target, on-time delivery)
- Deploy and promote employees according to their objectives
- Compliance with legal and operational arrangements
- Compliance with occupational health and safety and working protection
- Deriving and implementing measures in cooperation with the project management
- Implementation of a culture of continuous improvement
- Participate in the development strategy

Our requirements:

- Qualified technical educational background as an engineer, technician or master
- Additional qualification as a welding engineer is an advantage
- Experience in a manufacturing environment or special-plant
- Experience in assembly leadership
- Sound knowledge in occupational health and safety and working protection
- Experienced in dealing with MS Office
- Knowledge of English
- Goal orientation, assertiveness and leadership
- Communicative and team-oriented
- Reliable and able to work independently

Our offer:

You can expect a versatile task with great discretion in a technically appealing environment. We also offer a modern workplace in a young, dynamic team with development opportunities. If you want to actively shape the company's future, we look forward to receiving your application including your salary expectations and possible starting date.

Please send your application to the following address:

Polar Refrigeration GmbH
Groß-Berliner Damm 90
12487 Berlin
